

FLAT OUT BEST™ FOR
A QUIET, STIFF FLOOR.

The right choice now for a lifetime of performance.¹

Everything rests on your subfloors. From granite countertops and floor coverings, to your footsteps and furniture – the subfloor you choose today is the base your home depends on for a lifetime. Because it's engineered with a unique resin technology for advanced moisture resistance and more wood for superior strength and stiffness, AdvanTech® subfloors give your finished floors a smooth, flat surface with a luxurious, solid feel.

Why top builders choose AdvanTech® flooring

FASTENER HOLDING POWER TO KEEP FLOORS QUIET

AdvanTech® flooring is made stiffer and stronger than OSB and plywood.³ This helps to eliminate floor bounce, squeaks, shaking furniture and rattling china cabinets. Whether your floors are hardwood, tile, carpet or marble, AdvanTech flooring is engineered to provide a smooth surface that holds finished floor fasteners securely in place.

LONG LASTING STRENGTH AND STIFFNESS

Support your home's premium features with strong, stiff flooring. With features such as larger appliances, premium countertops, Jacuzzi tubs and open floor plans, modern homes and finishes put more weight and stress on the floor.

AWARD WINNING QUALITY

AdvanTech flooring has been rated #1 in quality for OSB every year for more than a decade by builders nationwide.² No other subfloor panel matches the award winning quality and performance of AdvanTech flooring.

LIFETIME LIMITED WARRANTY FOR PEACE OF MIND¹

AdvanTech flooring is backed with confidence through the best subfloor warranty available.
